

Job Title: Registered Apheresis Nurse

About HemaCenter:

HemaCenter, LLC, is a wholly owned subsidiary of OrganaBio that supplies adult whole blood-derived cellular starting materials to cell therapy developers for the advancement of next-generation medicines. HemaCenter is seeking Registered Apheresis Nurses to perform leukapheresis procedures and provide comprehensive donor care at our leukapheresis center in Miami.

Description:

The Registered Apheresis Nurse will function under the guidance of an attending physician, and in accordance with established standard operating procedures. This hire will report into HemaCenter's attending physician and be responsible for donor screening and collection visits. The candidate must possess clinical knowledge and skills related to apheresis procedures and demonstrate the ability to quickly assess and perform in stressful and emergency situations.

Primary Job Responsibilities:

- Conduct donor enrollment and collection appointments following HemaCenter SOP's and complying with FDA Regulations, IRB and cGMP requirements where applicable
- Assesses patients' responses to apheresis making appropriate adjustments and modifications to the collection as indicated by the attending physician.
- Communicate problems or concerns to the Collection Site Manager, attending physician, and other Apheresis Nursing staff as indicated.
- Accurately documents all pertinent information in the donor's medical charts, as needed
- Administer medications within the scope of practice and HemaCenter's policies and procedures.
- Perform physical examination: assess, evaluate, interpret, and document the donor's physical and mental status.
- Complete appropriate training programs related to patient care and staff safety
- Professionally interact with donors and staff to assure the donor experience is a safe, efficient, and enjoyable process
- Maintain donor confidence and protect operations by keeping information confidential.

Primary Job Requirements:

- Graduate of an accredited School of Nursing (R.N.) or Baccalaureate Degree in Nursing Science. A current Florida RN license is required.
- Candidate should have thorough knowledge in operating medical equipment utilized in apheresis procedures and administering emergency care. Certification in Apheresis Nursing is highly encouraged.
- Minimum 3-5 years RN experience, apheresis experience strongly preferred.
- Demonstrates organizational and time management skills, and a competency toward completing continuing and ongoing apheresis education.
- Bi-lingual in English and Spanish preferred.

What We Expect From You

- Communication - We feel this is the most important aspect of any job. You must be in communication with your supervisor, and make sure they are appraised of and in agreement with your everyday tasks
- Timeliness - Everything we do - from shipping out specialty products to scheduling specific donors - is on a schedule. While we are very flexible in terms of time off and scheduling, we operate on the assumption that our employees will be timely, and if necessary, give plenty of notice of any absences
- Teamwork - Our operations, testing and systems are complex and multifaceted, so we expect you to work well with our current team members - from those in the lab to those in administration - to ensure we work most cohesively
- Willingness to Learn - While we expect you'll come in with a variety of basic skills, we ask that you also come with eagerness to learn more

Salary & Benefits

- Competitive salary within the field. Final determination will depend on experience level and qualifications
- 401k Program
- Medical, Dental and Vision Insurance
- Paid Time Off

About OrganaBio:

OrganaBio is a Miami-based CDMO that manufactures clinical (cGMP) grade cells for cancer immunotherapy and regenerative medicine drug developers. OrganaBio's vision is to accelerate the development of these drugs by giving developers access to (i) fresh and scalable tissue supplies; (ii) cell isolation, purification, expansion, and characterization services; (iii) process development services; and (iv) clinical grade manufacturing services. At OrganaBio, we empower our customers' people, process and products on their journey to commercialization. Our team is comprised of highly motivated individuals who thrive in a fast-paced environment and are adept (and like) to deal with different tasks within a work week.
